Sellers can earn over 72% of their item's final selling price!

In our experience, selecting a \$9.99 starting price usually results in a higher final sale price because there will be more bidders. And although we will strive for the highest sale price, ezSalez is legally required to accept the highest bid an item receives; we cannot return it to you if it sells for less than you think it's worth.

### Our sales commission is:

- 25% of the first \$500
- 20% of the remaining amount (over \$500)
- ezSalez charges a minimum \$5.00 commission per item.

The seller will also be responsible for paying all eBay fees and all Paypal transaction fees incurred in the sale of the item. Paypal charges a standard fee of \$.30 + 2.9% of the total transaction. All fees incurred by the seller will be deducted from the proceeds of the auction.

### eBay Fees

eBay charges a Final Value fee for all completed auctions. The fee is based on the winning bid amount and is calculated as follows:

- 5.25% of the first \$25
- 2.75% of the next \$975, and
- 1.5% of any amount over \$1,000.

The Final Value fees are paid by the seller and will be deducted from the proceeds of the auction. For sold items only, the seller will be charged the standard \$.70 eBay listing fee.
